### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joscelyn G. Cockburn (Reg. No.27,069) on 4/4/2005.

The application has been amended as follows:

**IN THE CLAIMS:**

Please **cancel** claim 12.

Please **replace** claim 10 as follows:

--10. A method comprising the steps of:

storing in a single instruction memory instructions for the handling of data transiting by an interface device;

executing in a plurality of interface processors the instructions stored in the single instruction memory;

receiving a data flow inbound through an input port;

communicating the data flow from the plurality of interface processors; and

directing the data flow outbound through an output port in accordance with the execution of the instructions by the interface processors;

recombining the stored and other selected portions of the data flow prior to direction of the data flow outbound through an output port. --

2. The following is an examiner's statement of reasons for allowance:

*The Examiner found the Appellants' argument stated on page 6 of the Appeal Brief is persuasive. Specifically, the Shobatake reference (U.S. Pat. No.5,557,609) fails to disclose the step of recombining stored and other selected portions of data flow prior to direction of the data flow outbound through an output port directed to the switching fabric.*

### **Conclusion**

3. Claims 10, 11, 13, 42 and 43 are allowed.
